# CP1000
24 ZONES
PORTABLE WALKTHROUGH
METAL DETECTOR GATE

Product Introduction

CP1000 walk through metal detector foldable is an Anti-terrorist and Police equipment to check whether there are any metal items been hided in the body, such as metals, guns, controlled knives and so on. It's portable and foldable, waterproof, can be transported in a car or van, and single person assembly without tools less than 5 minutes, optional built in black-up battery which can working at least 40 hours.

General Specification

Sensitivity level: 100
Each zone sensitivity level: 255 (Adjustable)
Power consumption: 12 W
Working frequency :1~100 bands
Highest standard: Metal size ≥ 6 g
External Dimension: 2240x870x500mm
Passage Dimension:2051x710x500mm
Fold Dimension:889x606x484mm
Packing Dimension: 985x700x570mm
N.W/G.W: 48KG/ 53KG
Humidity:99%,non-condensing
Working voltage: AC110V~240V 50/60Hz
Working environment temperature: -40℃~+85℃

Advanced Features

- **IP Grade: IP67 superior waterproof performance.**
- **7-inch LCD touch screen, simple operation**
- **Power supply: the whole system is equipped with 12000mah polymer battery**
- 255 adjustable sensibility levels.
- 24 individual detect zones.
- Self-diagnostic, it will inform the user when exit the system.
- Memory Feature Stores Settings for last operator when power off.
- DSP and Microprocessor Controlled, login into the control panel safely.
- Head-to-Toe, Zone Specific Detected.
- Mobile APP achieve remote control(optional)
- Self-calibration once power on.
- Automatic counting function

Compliance

- CE compliance
- ISO9001 Quality Management System
- ISO14001 Environment Management System
- OHSAS18001 Occupational Health Management System

Applications

Schools and sports event
Meetings and VIP Security
Outdoors security protect
the entire place that needs the high sensitivity and portable metal detector
